

Eastwind User Setup Guide

The Challenge:

Enterprises today fight a complicated battle: there is a global army of hackers who never sleep and who are looking for new and creative ways to break into networks, whether hosted or on-premise. Eastwind arms security teams with comprehensive visibility.

The Solution:

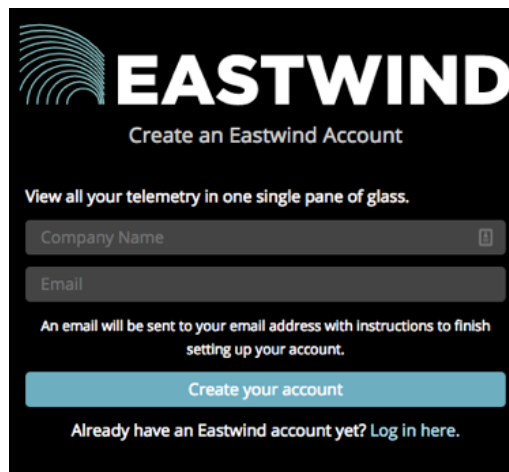

The Benefits:

- Complete cyber security and visibility of your cyber terrain.
- Enhance your Breach Analytics with Eastwind for SaaS telemetry.
- Streamline your procurement; No POs required; Be up and running in minutes.

Overview

To create an Eastwind account, go to the [Eastwind Portal](#). Click on Create Account, enter your Company Name and Email, then click Create your account. Eastwind will then send you a confirmation email with instructions to complete the account setup. When you receive the confirmation email, you will be prompted to create a Password. You are now ready to logon to the Eastwind Portal.

The screenshot shows the 'Create an Eastwind Account' form. It features the Eastwind logo at the top left, followed by the text 'Create an Eastwind Account'. Below this is a sub-header: 'View all your telemetry in one single pane of glass.' The form contains two input fields: 'Company Name' and 'Email'. Below the 'Email' field, there is a note: 'An email will be sent to your email address with instructions to finish setting up your account.' At the bottom of the form is a large blue button labeled 'Create your account'. Below the button, there is a link: 'Already have an Eastwind account yet? Log in here.'
